Combined Joint Task Force - Operation Inherent Resolve Monthly Civilian Casualty Report

SOUTHWEST ASIA -- During the month of January the Coalition and our partners continued the fight to ensure the lasting defeat of Daesh. The Coalition and our partners have liberated over 98% of the area formerly controlled by Daesh, and have liberated 7.7 million Iraqis and Syrians once held under brutal Daesh rule. However, much work still needs to be done to ensure the lasting defeat of the terrorist, criminal organization.

In January the Iraqi Security Forces demonstrated proficiency and professionalism in providing security for Iraqi Army Day and Iraqi Police Day without incident. Iraqi forces continue to take the fight to Daesh terrorists hiding among the people of Iraq. The ISF conducted multiple operations to secure their country, people and borders. The security they provide enables the international community to support non-military stabilization operations and assist in the return to normal life for the Iraqi people who have hope for a better life after Daesh.

Syrian Democratic Forces and Coalition partners continued operations to destroy remnants of Daesh in Syria. SDF's successes and continued efforts to remove terrorists from the battlefield and deny Daesh safe haven have been a benefit to the world, preventing the regional and global spread of a hateful ideology that actively seeks to target our homes and our populations. This was demonstrated when a

significant precision strike, involving exhaustive intelligence and observation to confirm Daesh concentrations and ensure no civilian casualties, killed between 145-150 Daesh terrorists in the Middle Euphrates River Valley Jan. 20.

The SDF's presence in Syria continues to reap dividends as they detain terrorists trying to escape the region. Early in January, the SDF were instrumental in removing two of Daesh's most violent terrorists from the battlefield as they tried to flee.

In the month of January, CJTF-OIR carried over 406 open reports of possible civilian casualties from previous months and received 195 new reports resulting from Coalition strikes (artillery or air) in support of partner force operations to defeat Daesh in Iraq and Syria.

During this period, the Coalition completed the assessment of 116 reports: 102 were assessed to be

non-credible, 10 were assessed to be duplicates of previous reports, and four were assessed to be credible, resulting in 10 unintentional civilian deaths. To date, based on information available, CJTF-OIR assesses at least 841 civilians have been unintentionally killed by Coalition strikes since the start of Operation Inherent Resolve. A total of 485 reports are still open.

The Coalition conducted a total of 29,070 strikes between August 2014 and January 2018. During this period, the total number of reports of possible civilian casualties was 2,015. The total number of credible reports of civilian casualties during this time period was 218.

After a thorough review of the facts and circumstances of each civilian casualty report, CJTF-OIR assessed the following 102 reports as non-credible: at this time there is insufficient information to assess that, more likely than not, a Coalition strike resulted in civilian casualties.

A finding of non-credible in many cases indicates a lack of evidence. "Non-credible" is not intended to deny the possibility that a CIVCAS incident occurred, nor is it intended as a comment on the credibility on the source of the allegation.
